INFORMACIÓN ADICIONAL

Undergraduate Programs

PUCRS is a comprehensive university.

Students can take classes in any [undergraduate program](#) offered by our departments, except if there are restrictions in the bilateral agreement. The registration in the subjects will depend on the approval of the Coordinator after having analyzed the student's transcript of records.

Courses taught in English

Our University offers [courses in English](#) from different fields of studies.

Please note that students do not have to submit proof of English Language Proficiency to attend these courses.

Internships

For the international students is also possible to hold an internship at partner **companies** or at PUCRS' **Labs and Research Groups**. Students may do an internship alongside their regular semester studies or choose to come only for the internship. Both modalities are explained [here](#).

Language requirements

Incoming exchange students do not have to submit proof of Portuguese Language Proficiency. Students are highly recommended to take Portuguese lessons (4-credit course) during the semester of their study program.

Buddy Program – “Amigo Universitário”

The buddies (Amigos Universitários) are undergrad or graduate students and alumni who have been selected to assist the newcomers before and during the study program. Each international student will be assigned a buddy.

Visa and Health Insurance

A student visa and an international health insurance are mandatory for all students who do not have Brazilian citizenship.

Housing

The university does not have accommodation on campus or off campus for students. Each student is responsible for arranging housing on his/her own. However, we recommend the platform [Housing Anywhere](#) to help students find some accommodation options according to their requirements. If the student has too many difficulties in finding housing, please have them contact the International Office.

Intensive Portuguese Course

An intensive course of Portuguese (beginner's level) is offered to the international students before the exchange program at PUCRS. For those who already speak Portuguese it is allowed to register only in the cultural activities during the afternoon.
